

Escape to Excellence

Team Building

Everybody loves a good team-building event. You get to leave the office, go do something fun and interact with co-workers outside of the more structured workplace environment. That said, a good team-building exercise has to be about more than just fun. While a trip to a baseball game or dinner out on the town may be excellent social events, they don't necessarily fulfill the function of a team-building event: To build your team!

Team-building events at Jacaranda Golf Club, however, manage to combine fun and function to deliver an activity that will not only be remembered as a fun couple of hours away from the workplace but which will, more importantly, forge a stronger and better functioning group dynamic.

Here are a few examples of the packages Jacaranda Golf Club has to offer:

- **30 minute clinic followed by 4 holes on the course, all while being shadowed by one of our golf professionals**
- **2 hour golf clinic, which covers everything from beginner's tips to helping an avid golfer shave off those last couple strokes**
- **Cocktails & Contests, Our most popular package takes two things that everyone loves and puts them together. With contests like "Breaking The Glass"(pictured below) to sipping on your favorite adult beverage, everyone is sure to have a great time**

Whether you have a group of 12 or 200 Jacaranda Golf Club has the package for you. This experience will have your whole office talking about that great team building exercise and chomping at the bit to do it again.
